

TURN YOUR SMARTPHONE OR TABLET INTO A PAYMENT TERMINAL

SECURE

Mobile card readers that encrypt card information before it enters the mobile device, providing protection of sensitive data.

COMPATIBLE

Our readers work on both iOS and Android devices, and support both tablets and smartphones.

EMV-ENABLED

EMV is the industry's latest gold standard. Enhance security and protect both you and your customers.

Pocket-sized card reader packed with powerful features

TINY YET MIGHTY

Pocket-friendly mobile card readers that are lightweight, enabling you to accept payments anywhere and everywhere.

ACCEPT MULTIPLE TYPES OF PAYMENTS

Easy to use mobile card readers that have separate slots for EMV chip cards and magnetic stripe cards.

AUDIO JACK CONNECTIVITY

3.5mm audio jack that has been vigorously tested on and is compatible with a wide range of adapter cables, including Apple's Lightning Headphone Jack Adapter.

Accept payments on-the-go today
